

## THE FORMAX™ ADVANTAGE

Formax™ mineral and vitamin supplements are formulated by Alabama Farmers Cooperative specifically for southeastern livestock consuming southeastern forages. Forages in the Southeast are unique in their nutrient composition. Therefore, a mineral and vitamin program formulated for the southeastern forages will better meet the unique needs of your livestock. Formax™ offers a full line of breeding, grazing and medicated minerals for cattle. When using Formax™ products, you can be assured of a product formulated and manufactured in a way to provide a palatable, consistent product in an economical price to meet and exceed the daily needs of your livestock.

For more than 50 years, Zinpro® has improved the health and well-being of both animals and people as a pioneer in the research and development of performance trace minerals and innovative nutritional solutions. Enhancing performance of your cow herd is imperative for maximizing profitability in your operation. Supplementation of Zinpro® Availa® 4 through Zinpro® Verified Formax products promotes better conception rates in cows, heavier weaned calves and overall health in your herd.

Formax™ Breeder Gold and Grazing Gold are Zinpro® Verified and contain the performance-proven levels of Cu, Zn, Mn and Co.

### WANT HI-MAG/GRASS TETANY PROTECTION?

Grazing Bronze M14  
24/7  
Grazing Silver M14  
Grazing Gold M14

### WANT TO INCREASE REPRODUCTION EFFICIENCY?

Breeder Bronze  
24/7  
Breeder Silver  
Breeder Gold

### WANT FLY CONTROL?

Fly Control IGR  
Fly Control Breeder IGR

### WANT MORE WEIGHT GAIN?

Growth/Rumensin

### WANT ONE MINERAL FOR YEAR-ROUND SUPPLEMENTATION?

24/7

### WANT ANAPLASMOSIS CONTROL?

Anaplaz FC 6000  
\*\*Requires current VFD\*\*

# MINERAL SUPPLEMENTS

## MINERAL AND VITAMIN BASICS

**Macro Minerals** - Calcium, Phosphorous, Magnesium, Potassium, Salt and Sulfur  
- Required for: Milk Production, Muscle and Bone Development, and Reproduction

**Micro Minerals** - Cobalt, Copper, Iodine, Iron, Manganese, Molybdenum, Selenium and Zinc  
- Required for: Immunity, Reproduction, Enzyme Activity, Bone and Skin Development, and Blood Cell Formation

### Chelated trace minerals:

- Increased conception rate
  - Fewer services per conception
  - Promotes testicular size and development
  - Improved semen quality
  - Better immune system and hoof health
- Chelated trace minerals are found in the Silver, Gold, or 24/7 mineral formulas

### Vitamins - A, D and E

- Required for: Increased Immune Response, Reduce Effects of Stress, Growth and Reproduction Efficiency.

## MINERAL AND VITAMIN MANAGEMENT

Formax™ Minerals should be provided free choice at all times. Provide one mineral feeder per 25 animals. Feeders should be located near water tanks, loafing areas and areas of best grazing. Depending on size of animal, consumption should average 4 ounces per head per day over feeding period.
