NUTRITION

Proper nutrition is key to optimum performance of your cattle herd. Without proper nutrition, cattle will not meet or exceed your expectations. Formax™ Beef Feeds use high-quality protein, energy, vitamins and minerals to meet the daily nutrient requirements of your cattle. These feeds are formulated to provide a safe, consistent and nutrient-dense supplement to maximize the performance of your animals.

STEAM FLAKED CORN

Some Formax beef feeds contain steam flaked corn for improved starch digestion, resulting in better energy utilization.

IONOPHORE

Ionophores (Bovatec®, Rumensin®) are feed additives used in cattle diets to improve feed efficiency, increase weight gain and decrease coccidiosis.

DO NOT FEED PRODUCTS CONTAINING IONOPHORES TO HORSES.

PROVEN, PREDICTABLE, PROFITABLE CATTLE DEVELOPMENT

Calves up to 800 lbs: Feed CPC Grower 13/Rumensin® free choice as a creep feed and preconditioning ration.

Bulls & Heifers above 800 lbs: Hand feed CPC Developer 14/Rumensin® at a rate of 1-1.5% of body weight per day.

To increase feed efficiency and improve feed conversion, add Stimu-lyx Stress Relief or Hi-Energy 12 tubs to the program.

Formax™

FEED RECOMMENDATIONS

Brood Cows

- Brood Cow Supplement
- Stocker 13/Bovatec®
- CPC Developer 14/Rumensin®
- AFC Beef 14/Rumensin®
- CPC Opti-Beef 16/Rumensin®

Bull/Heifer Development

- Brood Cow Supplement
- CPC Developer 14/Rumensin®
- AFC Beef 14/Rumensin®
- CPC Opti-Beef 16/Rumensin®

Creep Feeding

- Stocker 13/Bovatec®
- CPC Grower 13/Rumensin®
- 14% Stock Feed
- AFC Beef 14/Rumensin®

Calf Preconditioning

- CPC Grower 13/Rumensin®
- Stocker 13/Bovatec®
- CPC Developer 14/Rumensin®
- AFC Beef 14/Rumensin®
- CPC Opti-Beef 16/Rumensin®

Show Cattle Feed

- CPC Developer 14/Rumensin®
- Formax Grower 12
- Fitter's Choice 32/Bovatec®
- CPC Opti-Beef 16/Rumensin®

Mixing Custom Feed

- Fitter's Choice 32/Bovatec®
