

AFC 22% LAYER

22% Laying Pellets

Pelleted Laying Hen Feed

Coop 22% layer pellets are designed to be fed to hens that are higher producing and to be fed during times when total consumption levels are lower such as times of heat stress. Should be fed to hens that are expected to be high producers of large and extra large eggs.

Feeding Directions:

Feed as the sole ration to laying hens. This complete feed is formulated to meet all the nutritional needs of laying hens and pullets for egg production.

Caution:

Provide to Poultry Free Choice. Always provide clean water. Always make sure that feed is free of mold and insects. When making changes to a poultry diet, do so gradually over a one-week period.

Warning:

Do not feed to sheep due to copper levels in this feed.
